Synergex Develops Distribution Partnership with NCsoft

MISSISSAUGA, ONTARIO--(Jan. 16, 2007) - Synergex Corporation (TSX:SYX) ("Synergex"), a leading provider of business solutions, announced today its latest partnership with NCsoft®, the world's leading developer and publisher of online computer games. Since launching successful games such as *Lineage*®, *Guild Wars*®, and *City of Heroes*®, NCsoft has capitalized on technological innovation and successful marketing strategies.

Synergex Corporation has recently developed a partnership with NCsoft to act as its Canadian distributor for all of NCsoft's video game products and software. NCsoft's affiliation with Synergex is part of a planned strategy to expand NCsoft's retail presence within Canada. This partnership will provide a platform to showcase and distribute NCsoft's market-leading products within the context of Synergex' formidable reach in the Canadian retail market. Synergex' value added supply chain management depth and long-standing retail relationships will effectively meet the demands of NCsoft's growing Canadian retail customer base.

Eric So, Vice-President, Corporate Strategy of Synergex Corporation said, "We are extremely excited about our partnership with NCsoft and to be working so closely with such an innovative and thriving company. We expect to provide NCsoft with the national reach we use to currently service some of the world's largest video game publishers. We look forward to offering a wider product range associated with the quality and popularity of NCsoft's products."

Through its Commercial Gateway operations, Synergex provides value-added logistics solutions for the computer entertainment industry in the Canadian and Mexican retail marketplace. Synergex' customer depth includes some of Canada's leading retail distributors, including companies such as: Wal-Mart, Future Shop, Best Buy and EB Games. Through this partnership, NCsoft will be better positioned to service its growing Canadian customer base by leveraging Synergex' expertise, existing relationships and structure.
